During The Fair

Come prepared with questions! Here are a few to get you started:

1. What should I know before applying? Are there any specific deadlines I need to be aware of in the admission or scholarship process?
2. What does a typical first-year student experience look like?
3. What internship opportunities are available?
4. What resources are there to help students find a job after graduation?
5. Tell me about the town/city the campus is located in. What are some activities students participate in off campus?
6. What is something your college offers that students don't usually know about?
7. As a first-year student, will I need to live on campus? Do most students live on campus or commute?
8. What is it like to live on campus?
9. How are residence halls and roommates assigned?
10. I'm interested in [club name] or [activity name]. Do you have anything like that?
